Academic Details

1.Completed diploma in computer Engineering (CSMSS Polytechnic in Chh.sambhajinagar)

2.Bachelor of Technology (B.E) Artificial intelligence and data science.(Pune University) (PERSUING)

Soft Skills

Analytical | Collaborator | Leader | Adaptable

Technical Skills

o **Programming Languages:**
   HTML,CSS.PHP,PYTHON,
o **Frameworks:**
   React, Express, Django

Core Competencies

Agile Methodologies

Software Development Life Cycle

Restful API

Debugging

Containerization

Web Services

Microservice Design

Performance Optimization

System Scalability

Profile Summary

- Currently Completed a diploma in Computer Engineering.
- Experienced in developing software and building applications. Skilled in programming languages like Java, JavaScript, Python, and C++,HTML,CSS,PHP .
- Have a good understanding of artificial intelligence and machine learning. Able to build AI-based projects and solutions.
- Strong understanding of coding, algorithms, and building software systems. Can create efficient and scalable software. Good at solving complex problems using AI and programming.

Work Experience

1.Python Programming (Internship)
Geo-tech Technology,Aurangabad June 2023 – august 2023
2. Frontend Web Developer:-(Training)
Smartpacey Institute & Technology Solution Pvt Ltd.
Jan 2024 - Jun 2024 · 6 month.
Chhatrapati Sambhajinagar, Maharashtra, India · On-site

Achievements:
- Assisted in developing applications using Java and JavaScript, contributing to project features.
- Helped design user interfaces for web applications, ensuring they were easy to navigate.
- Participated in team meetings to discuss project progress and provide input on features.
- Conducted basic testing to identify bugs and ensure software functionality.
- Collaborated with senior developers to learn best practices in coding and software development.
- Maintained and updated existing code under supervision, improving application performance. Documented code and processes to help the team understand and maintain the software.

Academic Projects

PROJECT NAME Near by PG.
Tools: HTML,CSS,JAVASCRIPT,PHP
Roles: Hardware Program, Full-Stack web application, Deployment

PROJECT-DESCRIPTION:-
I created a paying guest management website using JavaScript and HTML/CSS,developing features for property listings, user registration, and inquiries. I conducted thorough testing to ensure the website was functional and responsive across various devices. Additionally, I gathered user feedback to improve site features and optimized performance to enhance loading speed. I also documented the site features and user
guides to facilitate easy navigation for users..
